

The Leader

THE NEWSLETTER OF THE GRANITE BAY FLYCASTERS

December 2023

<http://gbflycasters.org>

Leader's Line

by Kim Lloyd, GBF President

December is a special month—days get shorter and nights get longer. In fact, the winter solstice will occur on December 21st. The good news is that we will be on the upward swing of longer days by the time Christmas hits!

December is also a time when fishing opportunities become restricted by other commitments. These include commitments to family, faith and friends. These commitments are not to be trivialized because they are the glue that binds our society together.

Granite Bay Flycasters is fortunate to have a core group that also maintains a commitment to this club. Without naming names, they publish *The Leader* or provide refreshments at our meetings; they host fly tying jams, casting clinics or fish-outs;

The 2023 Holiday Potluck Dinner

The annual club potluck dinner will occur on December 14th. The clubhouse doors will open around 5:30, and dinner will start between 6:00 and 6:30. Get there early—latecomers will be assigned KP duty. Here's what you bring based on the first letter of your last name:

A-E: Desserts F-K: Entrees
L-Q: Appetizers R-Z: Salads

Here are some helpful hints:

- Bring an extension cord – with your name marked on it – if your dish needs to be kept warm (slow cooker; crock pot; warming plate, etc.).
- Same thing with serving plates and utensils: mark them, too – this is a rough crowd.
- The club will provide napkins, paper plates and plastic utensils.
- The club will also provide hot coffee, sugar/sweetener, bottled water and some sodas.
- A limited amount of spices – think salt and pepper – will be available.

Check your email for any late breaking news or email/call me if there are any questions.

they coordinate the swap meet or maintain our website; and, don't get me started on the Annual Dinner. These commitments allow our club, among other things, to harness the energy of 300 members to preserve, protect and enhance our local waters. These are worthwhile efforts.

This message stresses "commitments" in the hope that readers will take the time (right now!) to renew their membership in the club. Put differently, 2023 is coming to a close, and renewing your membership (right now!) is an appropriate way for each member to signal their commitment to supporting the club in 2024.

See ya on the water.

Granite Bay Flycasters 35th Annual Dinner

March 30, 2024 — 4:00 PM to 9:00 PM
Rocklin Event Center
2650 Sunset Boulevard, Rocklin, CA

I can sit here and tell you all the great things that are going to happen at the Annual Dinner, i.e. raffle prizes galore; a silent auction with fishing and non-fishing items; games like 100 Squares, Deck of Cards and Net of Cash; tasty desserts you can bid on; barbeque with friends; wild fishing tales and more.

Or, I could tell you this is the biggest fundraiser of the year for our club, bringing in money we give to worthy causes in conservation.

Continued on Page 3

GBF 35th Annual Dinner - Continued from Page 2

No, I am not going to do that. I am simply asking you to buy some dinner tickets, a few (or a lot of) raffle tickets, and come enjoy the festivities. Right now, by the way, would be great if you bought some dinner tickets; or, whenever you feel like it.

You can purchase tickets on-line by going [HERE](#), the Granite Bay Flycasters website, "Events" at the top of the page, then "Annual Dinner." You can also access the Annual Dinner link on the website at "Member Options," then "Event Calendar."

This event is too important to wait until the last minute to purchase tickets. Get there before the crowd.

Manzanita Lake Fishout Early Notice

Hello GBFers. The fishout at Manzanita Lake has been scheduled for June 17-23. This means that campground and cabin registration opens December 17th at 7:00 AM. Spots do fill up fast, so it is wise to get after it. Most folks stay in loop A. I would avoid sites 26, 23, 34, and 42, and be sure to check the length of the site. Reservations are through www.recreation.gov.

This is an unlimited event, and offers wonderful fishing for wild large rainbows and brown. There are other activities for non-fishers like hiking, biking, and sightseeing. Please join us.

Any questions please call Michael Kaul at 916-337-5468.

Mark The Calendar! Annual Swap Meet and Chili Cook-Off

Saturday, December 9, 2023
Starts at 8:30 AM at the Clubhouse

Don't forget, it's get ready time for the Annual Swap Meet and Chili Cook-Off. This one should be on your calendar so you don't miss it. Sort out your extra gear that is taking up valuable garage or closet space, and get it out for the swap meet. Lastly, dust off that old special chili recipe and tune it up to enter it in the cook-off.

Remember to get the best deals—be there no later than 8:30 AM (by 10 am everything is pretty much bought, sold or eaten). Sellers, please contact **Drake Johnson (916-532-3073)**, or 1drakej@comcast.net) and let him know if you want table space and/or if you're planning to enter the Chili Contest.

There will be a signup sheet, at the November meeting. Also, you can sign up online through the club's calendar on the web site. Here is the link to the online signup: <https://gbflycasters.org/event-calendar/#!event/register/2023/12/9/annual-swap-meet-chili-cook-off>

Sellers should plan on being set up and ready to go by 8:30 AM. Additionally, it helps you sell items if you put price tags on the items you are selling. Large items such as pontoon boats, prams, etc., should be displayed outdoors on the deck or the parking lot. Note that this year there will be a **Free Table**. This is where you can bring items that you would like to find a new home for with a fellow fly fisher, but you don't want to set up a table and try to sell.

Chili Cook-off Contest – Chili chefs, it's your chance to win braggin' rights as the best chili maker in GBF, along with a box of four dozen flies. The winner will be selected by who gets the most votes.

Continued on Page 4

Annual Swap Meet and Chili Cook-Off - Continued from Page 3

**To participate:**

1. Bring your chili in a crock-pot with a serving spoon, and pre-warmed.
2. Name your chili (This is important, because the name is what is used for voting).
3. Bring a short extension cord for your chili. Label it.
4. Winner will receive a fly box with four dozen assorted flies.

Continental Breakfast!

We'll have a continental style breakfast available for \$3.00, and complimentary coffee and water.

Lastly, don't forget there is the raffle with the prize of a fly box with an assorted four dozen flies.

Tenkara 2024

by John Pellegrin, Tenkara Project Lead

Tenkara continues to grow in GBF, with more people each year with rods, some joining the club with a rod already. Next year, we will have three types of tenkara events for people to participate in:

- Tenkara Workshops
- Tenkara Rod Casting
- Tenkara Fishouts.

Tenkara Workshops:

With so many people in GBF with tenkara rods, the two clinics we've had in the past are no longer sufficient to serve the various needs. So, next year we will be taking a new approach to tenkara clinics: we will hold a Tenkara Workshop every two months, starting in March and ending in September, on the first Saturday of the month at Davies Park in Folsom (where we have been holding clinics) at 10:00. At the workshop, a variety of things will be available to members who might be interested:

- An introduction to tenkara, which would be more complete than the tenkara rod casting before the May meeting (see below). We will have the club's three loaner rods to use.
- If you have a new rod, we can do a more complete run through of tenkara fundamentals, including practicalities of fishing tenkara on the stream, common problems that can occur, as well as basic strategies for fishing tenkara.
- A casting clinic, if you want to improve, or extend your suite of casts.
- Advanced tenkara techniques, including additional casts; manipulations for various situations; and strategies for covering the water, integrating surface and subsurface presentations.
- Socializing with other tenkara fishers, sharing fishing experiences and places.

The first one in March will also be the Spring Kickoff, just to get together and socialize, as well as offering the above. I will be joined by 4 excellent coaches for the various activities: **Stevy Lee, Gary Tateishi, Jim Hopkins, and Chris Kight**. The dates will be on the GBF calendar. You can come as many times as you like. No need to sign up.

Tenkara Rod Casting:

This is what we did before the May meeting this year and last—a chance for you to come early to the monthly meeting and try out a tenkara rod, just to see what it's like. It's not a clinic in the formal sense, and does not require sign-up—just come! You can get a quick lesson in tenkara casting. If you have a rod already, it's a chance to try other ones, something that is not possible to do anywhere else in NorCal. There are several members who own multiple tenkara rods, and they will make them available to cast.

(916) 601-7853 C

Tenkara Fishouts:

I have 4 fishouts planned for 2024, which are the ones we've had for many years. They are good locations for a group of people.

- **Silver Fork (of the S. Fork of the American):** this is an excellent location to fish tenkara. It is usually held in July, after the spring flows are down to a good level.

Continued on Page 6

Tenkara 2024 - Continued from Page 5

- **There will be two fishouts on the Upper West Carson.** The location is at the south end of Hope Valley—officially Faith Valley. It has become a very popular fishout, and to avoid too large a crowd I will have two fishouts. They will be in early summer before the water gets too low or warm. The fishout location is at 7500', so is a great break from the valley heat.
- **In September I'll have the East Carson fishout.** By that time the flow is down considerably and is great for fishing tenkara. It is particularly interesting, since the town of Markleeville plants many rainbows throughout three seasons, some very large. That means that learning the details of landing a large fish is an essential part of the fishout.

If you have wanted to try tenkara on a fishout, the club owns three tenkara loaner rods. As long as you get some orientation at the Tenkara Workshop, you can attend any of the fishouts with a tenkara rod.

Here are photos from a couple of fishouts this year:

Upper West Carson fishout, July 2023

East Carson fishout, September 2023

So, if you own a tenkara rod, or are just interested, there are several ways to be involved with other club members that own rods. If you have a rod, but haven't been using it much, consider the several ways to expand your skill set, learn about more streams that are wonderful for tenkara, or just want to be with others fishing tenkara more, there are lots of opportunities. It's a great way to supplement your river or lake fishing, with time on a mountain stream!

How to Renew Your 2024 Membership

Renewal Schedule and Reminder Notifications

The renewal schedule window runs from November through December, and then late notices are sent out from January through March. At the end of March, non-renewed members will be purged from the active roster and moved to an inactive status. Inactive members will no longer receive club email bulletins, *The Leader* monthly newsletter, nor be able to participate in fishouts or clinics.

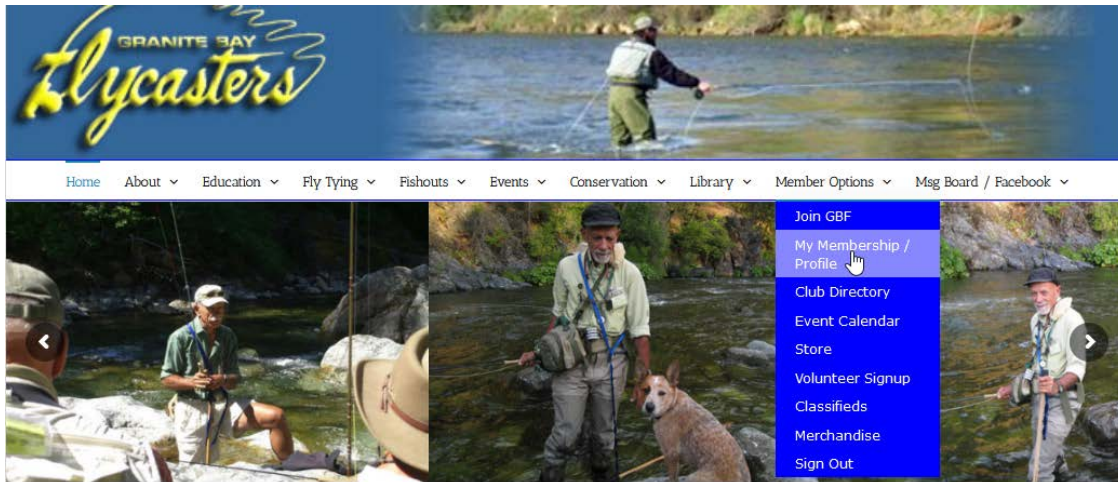

Once renewed, you are done! No further notifications should be received.

Renew Online or at the General Meeting

Renewals must be accomplished online only. The online renewal process is fully automated and requires a credit card. As the primary member, sign in the usual way to ['My Membership / Profile'](#) under ['Member Options'](#) on the GBF site.

Continued on Page 7

How to Renew Your 2024 Membership- Continued from Page 6

Signing On to Begin the Renewal Process

GBF released new membership management software in July 2023, and your 2024 renewals are due before the end of 2023.

For many of you, this will be the first time you have logged into the new membership software. Should you have not yet read the Membership App Launch email and familiarized yourself with logging in the first time, please click here for the [Launch Announcement](#).

Renewing Online, and After Signing In

Once signed in, navigate to the 'About' tab, then check that the Liability Waiver radio button has been checked to acknowledge acceptance, if unchecked, please acknowledge acceptance.

Should you have not yet read the [How to Manage your Membership Profile](#), please do so.

On the About tab, scroll to the bottom and search for the area where a Renew, Upgrade or Update Billing button is available. At this point, note whether you have an Individual or Family membership level, and notice what your current expiration date is; it should be January 1, 2024. Should you feel so inclined, round up your payment to \$50, this will help the club forego recently increased expenses. Continue to enter your credit card, and then continue. You are done at this point!

Adding Your Spouse or Partner

If you have a family membership and you have a spouse or partner who wants to receive the monthly newsletter, *The Leader*, by email, or wants to be visible in the Club Directory, after renewing, go to the Family tab in your profile and add your spouse or partner as an additional contact in your profile. They can then sign-on using their email address, request a password, and proceed into their own limited profile. They can also reset their password to something easier to remember. The Event Calendar, Store, and Club Directory will be accessible to them.

Before Signing Out

Before signing out, please be sure to review your profile settings by checking 'About' tab and 'Profile' tab (as well the other tabs), and update any areas needing your attention; this will immensely help other members find you in the directory. Remember to identify what areas of the club functions you are willing to help with.

Support

For issues and questions regarding membership, reach out to **Don Whitecar, VP Membership**, using gbf-membership@gbflycasters.org; or for technical issues, reach out to the webmasters at gbf-webmaster@gbflycasters.org.

Meet local fly fishers and enter to win fabulous prizes!

Everyone's invited to the
GRANITE BAY FLYCASTERS
35th Annual Dinner and HUGE

Fly Fishing Raffle & Auction!

With thousands of dollars in raffle prizes and silent auction items including high-end rods, reels, and other fine tackle, plus guided fishing trips and many non-fishing items.

Saturday, March 30th, 2024 • No-host bar opens @ 4:00pm

Granite Bay Flycasters is one of the most active fly-fishing clubs in the West. This event supports our ongoing conservation and education programs - and is a fantastic way to meet new fly-fishermen and women in the Sacramento area. Please join us for an evening of great food, friendship, fishing gear, and FUN!

Bill Carnazzo Fly Tyer's Corner
(Taken from the Article Written in December 2008)

Fly Patterns - Bill's Emerging Thing

Bill's Emerging Thing

Materials:

Hook:	Daiichi 1260 #8
Thread:	Orange 8/0
Tail (shuck):	Dun colored CDC
Abdomen:	Alternating orange and root beer glass seed beads
Thorax:	Creamy orange Buggy Nymph mixed with gold Lite Brite
Underwing:	Orange crystal flash (sparse)
Wing:	Burnt orange deer hair
Hackle:	Soft furnace hackle

Description

I owe this pattern to a couple of very innovative good friends. A very long time ago Joe Kimsey, guru of the Upper Sacramento River and former owner of the Ted Fay Fly Shop in Dunsmuir, created his famous "Maggie" to imitate an emerging October Caddis. I believe Joe may have gotten the idea from Ted Fay. The Maggie is made of orangish dubbing and trimmed deer hair. Don't be put off by its shaggy appearance because that is intentional. Air bubbles are trapped between the trimmed deer hair strands, creating the suggestion of life—so very important in any fly, but especially in an emerger imitation. Many, many trout have been caught on the Maggie—which, of course, is the proverbial proof of the pudding.

But over time patterns morph, partly in response to changing fish reaction to patterns that they have seen a lot, and partly because we fly tiers are constantly tinkering in the exercise of our personal creativity. Ron Rabun's Crystal Maggie is a good example of a creative tyer adapting to changing conditions with a "revision" of a long-standing fly pattern. Ron's pattern incorporates most of the qualities of the Maggie, but includes some of his own designs. A few of Ron's changes include the addition of crystal flash with the wing, some ribbing, and a furnace-type hackle at the front. Again, the results prove the theory; the Crystal Maggie has brought many a fish to the nets of anglers, including me.

My own version, which I call "Bill's Emerging Thing," is based on both the Maggie and the Crystal Maggie. I changed the color of the deer hair "wing," used tiny glass beads for the body, and added a shuck made of CDC. I've been testing this fly for several years and am now convinced that it is a fish-catcher, having caught a good number of large fish with it during the fall season of 2008.

Tying Instructions

For best viewing: (1) Maximize your Computer Screen Window. (2) Type "Ctrl + or -" to enlarge or contract the photograph display. (3) Use the Horizontal and Vertical Scroll Bars to scroll right and up/down to display larger photos on your screen.

Continued on Page 10

Granite Bay Flycasters Classifieds

To place a classified ad, you must be a member in good standing of the Granite Bay Flycasters. Classified ads will run for only one issue of The Leader, unless the seller requests it to run longer. Submit your listing to: editor@gbflycasters.org. All ads must be submitted by the 15th of the month to be included in the following month's Leader.

Fly Tyers Corner - Continued from Page 9*Steps 1 & 2*

1. Smash hook barb thoroughly—this is necessary (aside from normal barbless reasons) in order to slide the glass seed beads onto the hook.
2. Place the hook in the vise with the bend facing down and slide an orange bead over the point and around the bend. Follow this with a root beer bead. Continue with alternating colors until the shank is half covered with beads. Reposition the hook in the vise in the normal position.

3. Mount the thread at the eye and wrap it back to the 1/3 point on the shank. Push the beads forward to the 1/3 point and begin wrapping the thread rearward between the beads. Keep the forward pressure on the beads in order to keep them from sliding too far to the rear. Build a thread dam behind the last of the beads to keep them in place. You should, at this point, have sufficient room to tie in the CDC tail. Return the thread to the 1/3 point on the shank.
4. Match two CDC feathers and pinch them between your thumb and forefinger. Measure them to 2/3 of the length of the shank and tie the tips in as a tail—in reality a shuck representation.

*Steps 3 & 4**Steps 5 & 6*

5. Dub a small thorax of orange dubbing material just ahead of the front bead, leaving room for the wing, hackle, and a small head.
6. Tie in several strands of orange crystal flash as an under wing. Top this with a small bunch of burnt orange deer hair. Don't stack the hair. Using a black Sharpie, make a strip along the top of the deer hair wing. Apply a tiny drop of super glue to the tie-in point.

7. Tie in a furnace hackle at the same point. Take 3 or 4 wraps and tie it off. Form a nice small head and whip finish.

*Step 7**Continued on Page 11*

Fly Tyers Corner - Continued from Page 10

Tying & Fishing Tips

1. As mentioned in the text above, don't stack the hair—just pull out the “wild” strands so that the tips of the remaining strands are fairly close in length. This gives the fly a more sleek profile that gives the impression of life.
2. Don't use a lot of flash; it is unnecessary and can scare fish, especially in low-water fall conditions.
3. Fish the fly on the dropper with a Stick Caddis on the point, and perhaps even a “stinger” tied to the bend of the Stick Caddis. Allow the fly to swing through a normal short line drift, and then let it swing below you where it will rise in the water column and resemble a hatching October Caddis.

Enjoy, and see ya on the creek...!!!

Upper Sacramento River Fishout Report November 2 - 5, 2023

by Tony Jelinek

The 30th annual Fall Upper Sacramento Fishout was an epic event. Seventeen anglers, along with two spouses, contributed to a great fishout. We had first-timers, **Jerry Hoyt** and his wife **Janice**, and **Marie Spaulding-Gray** and her spouse **Jeannie**. The rest of us, with varying degrees of experience on the Upper Sac, were **Chris Warren**, **Michael Biggs**, **Stevy Lee**, **Tom Mersich**, **Bill Avery**, **Greg Nyland**, **Mike Mizinski**, **Pete Koistinen**, **Mark Fox**, **Brian Kerfoot**, **Eric Kellenberger**, **Kim Lloyd**, **Gary Tateishi**, and **David Spaulding**. Euro Nymphing was quite the buzz, along with the two largest fish I have ever seen caught on the river. The weather was cool, with just a few sprinkles of rain, and the flow was around 225 cfs—very wadable, thin in some places, but plenty of “fishy” water.

We kicked off the first evening at the Dunsmuir Brewery—taking over their patio. The weather was a bit cool, but nothing that a good down jacket or extra layer could not handle. Some had already been fishing. **Tom Mersich** had been up since Sunday, and had a chance to hit a caddis hatch, and caught fish using a yellow stimulator. **Eric Kellenberger** had tried his luck on the McCloud River. After driving down the terrible road to the river, he decided it was best to just fish the Upper Sac. The group stayed at several places around Dunsmuir—the Railroad Park Resort, Dunsmuir Lodge, Sims Campground, Cave Springs Resort, and Soda Creek Farm. **Bill Avery** stayed in one of the 1920's cabins at Cave Springs—a little rustic, but he could practically roll out of bed, down the hill, and be fishing on the river.

Marie Spaulding-Gray with her huge wild rainbow

Continued on Page 12

Upper Sac Fishout Report - Continued from Page 11*Chris Warren fishing a run*

Friday, we met at the Dunsmuir Lodge, got the groups together, and headed out in anticipation of a great day on the river. Of course, we had varying results as far as the catching was concerned. Anglers were fishing dry fly, short-line, Euro, and under an indicator. The group met for a Tri-tip dinner that evening at the Soda Creek Farm. Everyone contributed to the event bringing wine, beer, and appetizers. We managed to get everyone either in the house or out on the deck for dinner. The hubbub at dinner concerned the two huge fish that **Marie Spaulding-Gray** and **Brian Kerfoot** had caught, and the Euro-Nymphing success of **Pete Koistinen**. Marie caught her fish Euro-Nymphing using a Prince Nymph, and Brian using a copper-copper John under an indicator.

*Brian Kerfoot with a huge wild rainbow*

Saturday, we had a smaller group, as about half of the group had to head home. After a day of fishing, we met at Casa Ramos in Mt. Shasta City for dinner and to tell tales of the day. **David Harvey**, who was fishing the Upper Sac for the 2nd time and had caught his first fish on a fly on his first trip on the Upper Sac, kept his streak going, catching a nice rainbow with a "good ol'" Rubber Legs. **Kim Lloyd** got into a caddis hatch around 5:00 PM and managed to fool a couple of nice-sized fish with a yellow stimulator.

Sunday, those of us who were left packed-up and either headed home or out for a little more fishing before heading out. We all left having made great memories, new friends, having learned more about fishing, and being ready to come back to get the fish that we know is just hiding behind that rock.

Granite Bay Flycasters

Mission: The organization is dedicated to conservation of fish habitat, advancement of the art of Fly Fishing, and good sportsmanship.

Meetings: General club meetings are held on the second Thursday of each month at the Granite Bay Activities Center on the shores of Folsom Lake. For directions, check <http://gbflycasters.org>.

Doors open between 6:00 P.M. and 6:30 P.M. for socializing and fly tying demonstrations. The business portion of the meeting begins at 7:00 P.M. The main program gets underway after a short refreshment break and usually involves a guest speaker and slide show, or other presentation. All meetings are open to the public and visitors are encouraged to attend.

Membership: Applications are available on-line at <http://gbflycasters.org> and at general meetings. Single membership: \$35; Family memberships: \$40; There is also a \$15 name badge charge for all new members. Membership is prorated. For membership information, visit the website at <http://gbflycasters.org>.

The Leader: To send articles, photos, ads and other materials, please e-mail to: Frank Stolten at editor@gbflycasters.org. Please put **GBF Leader** in the subject line. Deadline for materials is the 15th of each month.

Please notify if address change
